Madagascar Jr.

Region of peel:

Gone Page 4

The Allan Drive **Avalanche** are back with **brand new teams** such as **ball hockey, Cricket** and more!..

This year was **action packed** full of **games**. This year there was a **basketball game** against **another school**. “The **Allan Drive Avalanche** **lost terribly**” says **Mr. McAuslin** He says “**Blame bad coaching.**”

This is where there is **good news!**

It is **confirmed** that **track and field** is going to be coming **this june**.

GENETIC

ENGINEERING

IS HERE!

Genetic Engineering is now here! (And in your lifetime.)

Genetic engineering has existed since 1973 when two biochemists injected dna from one bacteria to another creating the first genetically modified being!.

Before genetic engineering existed cucumbers, watermelons and more were either gross, small, spikey, and even dangerous in some cases. But when genetic engineering got discovered They used beams of radiation to randomly mutate fruits such as cucumbers to make them more desirable.

All of this is possible due to a recent discovery of a protein that is commonly found in bacterium.

It's name is "Crispr Cas9". This protein was originally found inside of bacterium's viral defence system. After an virus is killed by a bacterium, parts of the viruses DNA is kept inside of "Crispr Cas9."

The Cas9 protein then scans all of the dna that is apart of the bacterium looking for matches of the viral DNA. The Cas9 protein does this forever until the bacterium dies. (Talk about dedication...)

We can utilize the Cas9 protein to replace Human DNA and cure many diseases!.

Did you know.....

- *There is a musical every 2 years.*
- *Rehearsals started way back in DECEMBER!*

REVIEWS

Question: “How would you review Madagascar Jr.?”

“It was really hard to get bored with all the changing of scenes. Lots was going on!”

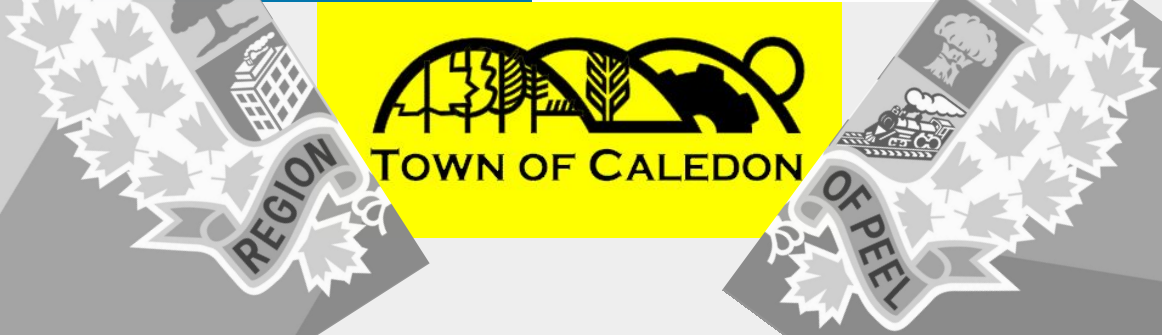

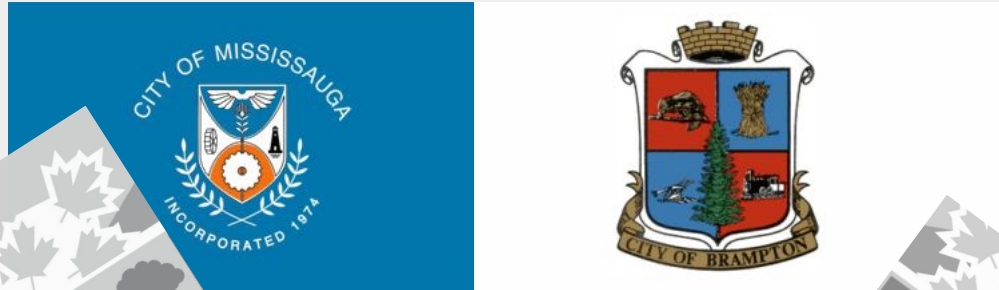

“Better than Hamilton, Their transit sucks”

“It was good, I’d probably give it an 8/10”

“Potato”

“The singing was really fun”

“Uhh, I don’t know the show? The thing we watched?”

REGION OF PEEL: GONE

The region of **Peel is separating**. This may be **big news** to some, and nothing to others. The region of **Peel includes the Town of Caledon, City of Brampton and the City of Mississauga**. These 3 places have **relied on each other** to provide garbage, water, sewage and emergency services.

Services like the **Peel Police** are **in jeopardy**, however the **Peel District school board** will **stay the same**. Doug Ford has "*Always supported an independent Mississauga*". This **separation** will give **Caledon more responsibility** and **Annette Groves** will have to **provide us** with all the **things that Peel gave**.

All of this **originated** with **Bonnie Crombie** (mayor of Mississauga) **wanting to save money** because the **taxpayers money** that **came from Mississauga** was **going towards Brampton and Caledon**. Thankfully this **separation** will be in **January 2025**.
