THE RACE TO STOP THE SLANG POSTERS

Ever since the start of the year, slang posters have been poisoning the hallways of Allan Drive. At first they were easy to ignore, but as more and more were put up they started to get on people's nerves. Especially Mr Taylor's.

Here at the Allan Drive Gazette, we highly disprove of slang and encourage people to speak with proper grammar. We started to investigate and led ourselves to 3 main suspects. Mr Aldrich, Mr Aldoroty and Mr McAuslin.

Mr Aldrich was soon eliminated. That left Mr Aldoroty and McAuslin. We sent them both anonymous notes making them aware of their suspicion. We got a note back from Mr Aldoroty, saying that he was not doing it and would like to work with us.

We started to design anti slang posters with his help, but within a few days more and more evidence piled on top of him. This left us with a hard decision to make. Ethier betray him now or look daft in the trial. We chose Neither. *Continued on Page 3*

MEET THE FALCON HEAVY

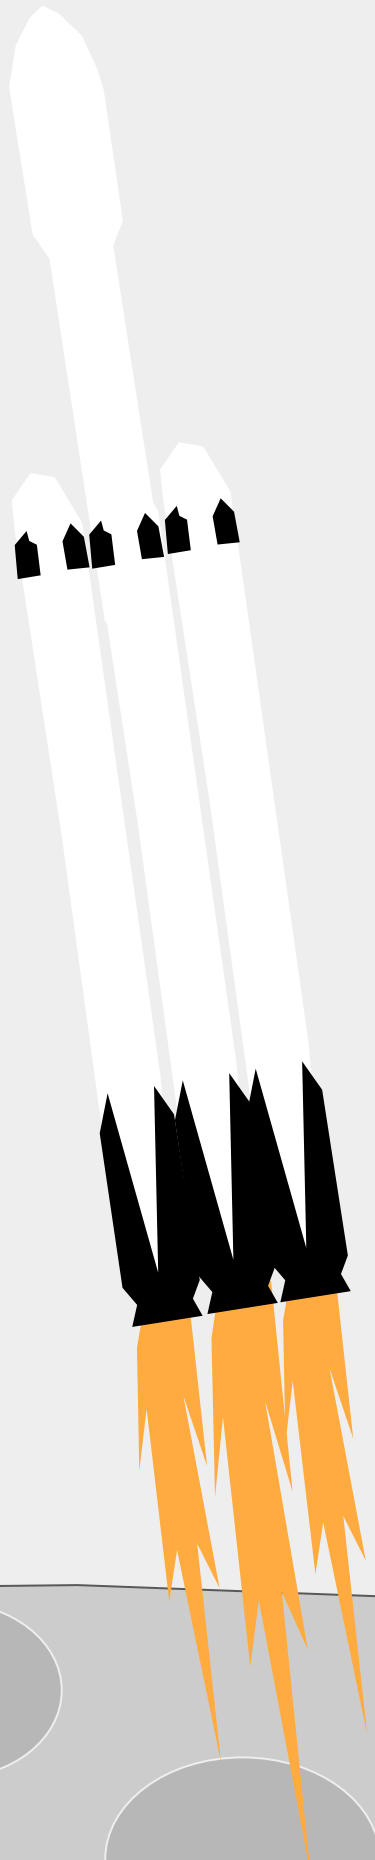

Recently a company called, “**SpaceX.**” released a **new spacecraft.** That spacecraft is named “**Falcon Heavy.**” The Falcon Heavy originates from SpaceX’s need for a **heavy lift capability rocket.**

The Falcon Heavy is a **super heavy lift rocket** that is **semi reusable.** The Falcon Heavy can **carry a staggering 63 800 KG at 39 600 kilometers per hour!** That’s 39 380 kmh more faster than the bugatti chiron!.

Due to the **immense amount of capabilities of the Falcon Heavy.** Nasa and SpaceX have used it for many critical missions. Probably the most famous mission was when they put a Tesla Roadster in space!.

The Falcon Heavy was **first thought out in 2011.** The Falcon Heavy was the **successor to the “Falcon 9”** and the Falcon Heavy is **proving a good successor.**

The **Falcon 9** looks **identical to the Falcon Heavy minus the 2 orbital boosters** on the sides. Furthermore the **boosters help the Falcon Heavy lift a staggering 63 800 KG** or even 10+ people to the moon!.

Instead of both those options, we decided to betray him during court. *"This is a kangaroo court!" - Mr Aldoroty.* It really was crazy.

Accusations were flying from all angles. Earlier **Mr Taylor** had recruited a **group of students** to figure it out, they had found a witness which was pretty impressive. That paid off when **Mr S Aldoroty** was found guilty.

He was **punished with taking down all of his posters** including that of his recent movement, '#FREE ALDO'. **Mr Taylor** is deciding a heavier punishment.

Some more quotes;

"Mr Aldoroty told us to put them up" - Gazette Witness protection agency

"This is off the record" - Mr Taylor

"When find out who is doing this, you are going to be shocked" - Mr Aldoroty

ALIENS ON EARTH?

Alien life has always been a mysterious subject. New evidence has cast a light on the possibility of alien life, on earth. While this may seem scary, I assure you that everything will be fine. UAPs (unidentified aerial phenomenon) has been sighted by the US air force and other government bodies. *"The truth is, we don't have hard and fast answers on these things"* - John Kirby, white house. These flying objects take the form of a disc and have been accelerating at speeds never thought possible. The pilots who capture these images are very well trusted and professional, they would never risk their career on a prank. It is now mandatory that navy pilots report UFO's because of their risk to safety. **Don't Believe Me?**
