Dad Jokes Page 4

## SPOOKY STORY

An Old Welsh Christmas tradition ( Mari Lwyd ) includes someone getting a horse skull, decorating it, putting it on a stick with someone under a sheet.

This would go and appear on your front porch. If you gave a good reason why it shouldn't come inside, it will give up and leave. If you accidentally invite him in, he will raid your house. Fun right?

# CANCER BEATS

**CANCER?**

---

## ***MEET THE*** ***HYPER TUMOR***

Cancer has been a **thorn on the backside to life for millions of years**. There have been many unsuccessful **attempts to find a cure** to this horrible disease.

In the modern era there is **ongoing research towards a cure to cancer**. One of those research projects is the research on the **“Hyper Tumor”**.

The **Hyper Tumor** provides a **good way to cure cancer** with **almost a 100% success rate**.

**Hyper tumor research** doesn't get as much **funding** due to other **more promising cures**.

---

## **HOW DOES IT** ***WORK?***

**H**yper tumors work by **cutting off resources to harmful tumors** that is affecting the patient.

By **injecting the Hyper Tumor** onto the Tumor, the **Hyper Tumor** will **redirect arteries** that were **previously going to the harmful tumor**. This in turn **kills the harmful tumor**.

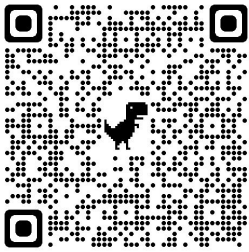

# VR HEADSETS ARE HERE!

## Help Wanted

HIRING WRITERS,  
REPORTERS AND  
EDITORS.

**Apply Here**

During our first assembly, one of our reporters asked Mr Taylor when VR was coming to our school. *“The Peel Board has been holding me back, because the age restriction on the headset was set to 13+. But because we have been waiting so long, I am releasing it in october for the grade 8s.”* - Mr Taylor.

The VR lab will be in room 204 (beside the library) for 15 students to use at a time, as there are only 15 headsets. The estimated cost is \$4,035 for all of the headsets. Our school is extremely lucky to have great opportunities in great technology.

The VR headset that will be used is called the “Pico Goblin”. The Pico Goblin is controlled by a remote comparable to an apple TV remote. Sadly the remote is missing motion sensors.

*A Brief History of....*

# *Thanksgiving*

## **AI JOKES**

“Why did the turkey cross the road?”

“To prove it wasn’t chicken!”

“Why don’t turkey’s ever tell secrets?”

“Because they’re afraid of being stuffed!!”

**W**hen European colonizers came to North America, they had no idea of **how long they were going to stay**. They were **hungry and tired**, not to mention in a place no European has been before. Essentially they were **desperate and clueless**.

However, the **Indigenous people came to the rescue**. They **gave them food and knowledge of the land**. This is just one theory of the origins of **thanksgiving day**. Some others tie into **religion**, as in **thanking god for a good harvest** as fall usually falls right into **major harvests** (yes, pun intended). That is also why a lot of **fairs take place in the fall**.

In the olden days **winter** can be **extremely harsh**, having a good harvest could mean **life or death** for some **pioneers**. Today **Thanksgiving** is a **wonderful time to be with family and friends**. Plus there is some pretty nice food that also comes with it.

## DAD JOKES

“I was visiting my friend’s house and he told me to make myself at home. I threw him out because I don’t like having visitors”.

“What's the best thing to do if you are lonely? Watch a scary movie. You won't feel lonely anymore”.

“I was shocked when I found my toaster wasn’t waterproof”.

“What do you get if you cross a sea monster with a duck? A quackin”.
