

ALLAN DRIVE **GAZETTE**

MENTAL HEALTH AWARENESS MONTH

Fun Season Page 2

ITER Project Page 4

Dad Jokes Page 5

Recent studies say that about 1 out of 5 Canadians suffer from mental health issues while in 2019 only 17% of Canadians reported having mental health issues.

That is 1 too many Canadians that have been suffering from mental health!. Canadians that have been experiencing mental health issues usually take a very long time to ask for help.

Please if you feel that you are having mental health issues please contact a trusted adult or go to kidshelpphone.ca or call their number

ECO CLUB

Allan Drive is a good school, but lacks something very important. Recycling has stopped. It is now up to students to manage their own recycling. That is when I had an idea. A club created by students, run by students to clean up our school and make it a better place. There is lots of trash that the custodians have to clean up. If you are an original reader, you will remember my article on how custodians work very hard every day. This club will dedicate 1 or 2 recesses a week to pick up trash. This is just an idea, but if you would like to give me feedback, you can use the application. Unfortunately recycling cannot happen this year, but maybe in September.

IT'S SUMMER TIME!

LAWN SEASON

It's that time of year again. where all you hear is lawn mowers. Expect to smell freshly cut grass and flowers.

Some kids describe lawn season as "The worst time of the year". They say that because of the constant hard work with little pay. They also hate on how their neighbors get up at 5:00 AM to mow their lawns which disturbs their sleep.

For gamers it is worse. Having to get off of their favorite video game to go outside into the hot sun and touching grass is torture for them.

FUN SEASON

Summer is here! And that mean summer fun!.

Canada's Wonderland opened recently and now is a great time to go!. It is also a great time to go to the beach and build an sandcastle.

You can also expect school to end to give you even more time to play!

When you come to school for the last day of school expect an nice work free day!. Some teachers may even do something special!..

EVEN MORE NEWS

(I ran out of ideas)

ONLINE SECURITY IS IMPORTANT

We live in a day where everything is online. Theoretically you could live online and never shop at any in-person stores. You play videogames online, imagine if you lost that amazing streak or all that v bucks. To any adults who are reading, your bank account information is at steak as hackers become more malicious with upgraded software that can even record what you type. “Meh, I don’t download anything sketchy, i’ll be fine” you said. No. Software that records your keystrokes downloads YOU. My personal preferred security browser is the Brave Browser. This browser doesn’t just block ads (yes, youtube without ads for free) and trackers but you can also turn on select ads and make real money! Again, it is completely free! There are lots of VPNs like Nord, but this is superb. You can download Brave at www.brave.com Not an advertisement, just a recommendation.

PEPSI, WHERE’S MY JET?

OLD NEWS, BUT STILL INTERESTING

Pepsico has created a new promotional system called Pepsi Points. You could redeem points for jackets, hats and jokingly a Harrier Fighter Jet for seven million points. John Leonard didn’t take this as a joke, got with a buddy, discovered a loophole in a flyer and tried to redeem his seven million points (value \$700,008.50) for the jet (value \$37.4 million) . Leonard followed all the instructions and deserves the jet, but Pepsi won the lawsuit. There is a Netflix series on this topic and I certainly recommend it for a more in depth look at what unfolded

FUSION ENERGY?

WHATS THAT?

THE FRENCH FUSION PROJECT

The french fusion project (**ITER**) is a **multinational project** that explores the possibilities of **Fusion Energy** and on how we could use its energy to change the world.

Fusion energy was discovered in **1938** by an british scientist named "**Peter Thonemann**". After his discovery he tried to patent it in 1946 but failed to succeed.

// Warning Science Ahead! //

Fusion energy is created when atomic **nuclei combine** to form a heavier nucleus, **releasing energy**. It requires **high temperatures and magnetic confinement to work**. We can harvest that energy for humans to use!.

WOW WERE HIRING!

IN NEED OF
WRITERS

SCAN FOR
APPLICATION

OK? BUT HOW WILL THIS AFFECT ME?

If the **ITER** project is finished it will show that **fusion energy is possible** and can provide a sustainable **large scale renewable power** source for millions of people!

That means that **fossil fuels** will go **obsolete** and be useless compared to fusion energy. Though **energy** only **contributes 21% of emissions**. So we **won't be fully emission free** (Yet)

ENTERTAINMENT

Dad Jokes

What did the egg say
when he was at the
party? Omelette!

What candy do
astronauts like? Mars
Bars.

What do you call a
snowman having a
tantrum? A Meltdown!

What did one plate say
to another? Dinners on
me.

How does an Octopus
go into battle?
Well-Armed.

Why did the boy throw
the clock out of the
window? He wanted to
see time fly!
